

# BERGMANN universal spreader

## Technical data, BERGMANN universal spreader:

Superstructure volume	19 m <sup>3</sup>
Spreading system	2 spreading discs, Ø 1000 mm disc drive system with 50-mm drive drums
Slat conveyer	controlled incrementally and hydraulically via a spur gear drive 4 feed chains (14 x 50 mm) total load 100 t
Milling machine	2 horizontal rollers with dual shredding tines
Weighing system	6 integrated weighing cells
Steering	via CCI ISOBUS terminal
